El Maida Enjoys Picnic In Oasis At Mt. Franklin

Caravan With Lots Of Provisions Has Good Time; 500 Persons Attend.

It was an imposing caravan that wended its way Tuesday evening from the Masonic temple to the improvised oasis at the foot of Mt. Franklin. The caravan was none other than the nobles of El Maida temple with their families, their oriental visitors and their commissaries, the latter consisting of soda water, watermelons, hard-wiches, ice cream and other viands that tempt the Arabian palate. In all, the caravan consisted of about 500 persons. The occasion was the Shrine's first moonlight picnic.

Flare of the allies marked the caravan's route from the city. The American flag floated over the emblem of the Shrine floated from a pole that marked the camp. Caravans were spread for repose of the weary. Those who were not weary on their arrival climbed the mountain.

After the "cave" were descended, El Maida's band began its concert. Bonfires on the mountain side illuminated the moon in illuminating the frolic. Illustrations potentate C. H. Leavelle, chairman of the transportation committee and arranged for the automobiles and trucks and led the caravan. Hope Smith was chairman of the picnic committee and supervised the removal of cactus. Past potentates W. W. Evans and James Brady were joint chairmen of the reception committee.

Tuberculosis Leads

The List Of Fatal Diseases In Texas

Tuberculosis caused the death of 4561 persons in Texas last year, according to George E. Granger, field secretary of the Texas Public Health association, who arrived in El Paso Wednesday. The white plague led all other diseases in the state's death list. Mr. Granger stated, however, that tuberculosis no longer remained the most fatal disease throughout the United States, due to the hard fighting waged against its spread during the past ten years. Tuberculosis last year ranked third among fatal diseases in the country.

Mr. Granger is in El Paso to assist J. B. Gwin, secretary of the Associated Charities, in planning the Mexican health exhibit to be given within a short time in the Mexican district. The exhibit will consist of pictorial displays showing the evils of filth and poor ventilation, together with the dangers of social diseases.

PRESIDENT AGAIN TO VETO

DAYLIGHT SAVING REPEAL

Washington, D. C., Aug. 12.—President Wilson, it was said today, will veto the law proposing repeal of the daylight saving act. The measure has been before the president since August 8 and he is expected to return it to congress before the end of the week. Efforts to pass the agricultural bill with its repeal rider over the president's veto failed last month, and leaders in both house and senate mustered the necessary two-thirds vote in order to override the next veto.

"COMMON CLAY" AT THE GRECIAN

Remarkable Story of Girl Who Stoops to Folly Will Be Shown Today.

"Common Clay," the remarkable drama which played at the El Greco theater recently four successive days to overflowing attendance, will be seen at the Grecoian theater today, tomorrow and Friday. This is perhaps the most intensely human drama ever written and is without question the biggest outstanding dramatic triumph of the present year. It tells a story of a girl who stoops to folly, a girl who loved pleasure and sought it where she could find it. The dance halls, a girl like you and me and most of us humans, was wronged and wanted to be right; she was the victim of unfortunate circumstances over which she had no control.

"Common Clay" is powerful because it is human. It gets beneath the skin and enters into the innermost recesses of the heart. It is a wonderful picture and one that every man and woman in El Paso should see. "Common Clay" is being shown at the Grecoian theater just three days—today, tomorrow and Friday—Adv.

AMUSEMENTS

DOROTHY GISH ALHAMBRA.
Come on and meet "Nugget Nell." You'll like her. She's a little crude and she forgets to check her guns before coming in, but you'll like her. At heart, she's a real lovely girl. She's a darter of the west, and is sort of free and easy, like a wild cat. She can tame a bucking bronco and rattle with a mountain lion, but she can be tender with a little child, and she loves soft boiled eggs. She is easily impressed, having the simple faith of most movie heroines of the wild west. But when she is deceived, she reveals what a wild, wild woman she is. You'll enjoy "Nugget Nell" thoroughly. It's a picture that will stay in your mind. And when you know that Dorothy Gish is the star, you will attend the Alhambra today.

ELLANAY—"VIRTUOUS MEN"

"Virtuous Men," the sensational new picture, is being shown at the El Grecoian theater again today and tomorrow for the last two days.

JAMES QUINN TO MANAGE TEXAS GRAND; OPENS SEPT. 1

James C. Quinn and associates will open the Texas Grand theater as a moving picture house on September 1. The interior thoroughly remodeled and overhauled.

The changes to be made in the theater," said Mr. Quinn, "will incorporate many ideas which will be radical departures from the present type of picture presentation and will undoubtedly be the means of placing that theater uniquely in a class by itself. These were begun the first of this month and are rapidly being pushed forward under our direction.

We have secured for our opening bill one of the finest pictures made in the last five years. In fact in the opinion of critics there has been only one picture made in that length of time which can compare with it, that one being "The Birth of a Nation." I am going to have it here in the near future for a pre-view."
